

Óscar Fraile

Software Engineer

Madrid, Spain | oscar.fm.96@gmail.com | github.com/oscarfr96

Summary

Product-minded Software Engineer with 8+ years building secure, scalable systems meant to last. Specialized in backend and distributed architecture on .NET, with end-to-end DevOps ownership and a strong focus on AI-assisted engineering. Endlessly curious and supercharged by AI across my entire workflow.

Experience

Full Stack Engineer · **Educaria**

2019 – Present · Madrid, Spain

Building Alexia, the leading EdTech platform for schools and universities in Spain and Latin America — 2M+ active users across web, Android, and iOS.

- Led the evolution from a monolith to a microservices-based system with .NET Core (Hexagonal Architecture, Clean Architecture, SOLID, DDD, CQRS).
- Secured the platform with Identity Server and scaled performance with Redis caching.
- Own the DevOps lifecycle: Docker containers, CI/CD pipelines on Azure DevOps, and Kubernetes orchestration managed with Rancher.
- Built test coverage with xUnit and BDD scenarios in Gherkin.
- Drove AI-assisted development — Claude Code agents, MCP workflows, and a shared vault of skills, roles, and Spec-Driven Development.
- Built a RAG-powered chatbot to assist teachers and students.

Software Developer · **NTT Data**

2017 – 2019 · Madrid, Spain

Software developer on a large-scale project for Repsol, powering point-of-sale across gas stations in Spain and Peru.

- Built mission-critical point-of-sale, handheld, and back-office systems.
- Joined the early phase of the new back-office front-end, built with Angular.
- Handled development, unit testing, and documentation within agile teams.
- Helped keep transaction processing reliable across a large retail infrastructure.

Skills

Backend: .NET Core, .NET Framework, C#, Python, Entity Framework Core, OData, GraphQL, Identity Server, Node.js

Frontend: React, TypeScript, Angular, Ionic, JavaScript, Tailwind CSS

Architecture & DevOps: Docker, Kubernetes, Rancher, Azure, Google Cloud, Vercel, Azure DevOps, GitHub Actions, Jenkins, Microservices, CI/CD

Databases: SQL Server, PostgreSQL, MongoDB, Redis, Firebase

AI & Automation: Claude Code, GitHub Copilot, MCP, LLM APIs, Prompt Engineering, RAG, AI Agents, Notion

Testing & Quality: xUnit, Moq, BDD/Gherkin, SonarQube

Projects

Gredio — Speaker diarization platform

[Python](#) · [FastAPI](#) · [PyTorch](#) · [GCP](#) · [React](#)

- Designed and built an async, job-based Batch API in FastAPI on Google Cloud Run, with on-demand GPU orchestration (ephemeral Compute Engine VMs), a prepaid credit system on atomic Firestore transactions, layered authentication, and a React dashboard and landing page.
- EEND diarization model (Whisper-style audio encoder + bidirectional GRU, frame-by-frame speaker activity) built together with a friend.

2026 World Cup Predictor — Honest track record

[Python](#) · [FastAPI](#) · [statsmodels](#) · [Render](#) · [React](#)

- Built a two-phase Poisson GLM — a prior pre-trained on international matches, blended via shrinkage with in-tournament learning — plus a Dixon-Coles correction over the full scoreline matrix to derive 1X2 probabilities and favorites.
- FastAPI backend on Render with a JSON cache recomputed daily via a GitHub Actions cron and per-IP rate limiting; React + Vite + Tailwind frontend on Vercel, with a track record persisted in Vercel Blob comparing frozen predictions to real results.

Education

Bachelor's Degree in Computer Engineering · UDIMA

2026

Universidad a Distancia de Madrid — earned while working full-time as a software engineer.

Higher Diploma in Multiplatform Application Development · Centro Europeo de Estudios Profesionales

2017

Spanish higher vocational degree (Grado Superior, DAM).

Certifications

Microsoft Certified: Azure Developer Associate — Microsoft · 2026

Claude Code in Action — Anthropic · 2026

Machine Learning with Python — IBM · 2026

What The Hack: Azure OpenAI Fundamentals — Código Facilito · 2024

Developing Back-End Apps with Node.js and Express — IBM · 2024

Cambridge English: Advanced (CAE), CEFR C1 — University of Cambridge · 2018

Languages

Spanish — Native · **English** — C1 (Cambridge CAE)
